DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1,2,5,6,15-17,20-23,27,28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 3, 'plates' should be 'plate'. Lines 9-13 are confusing. Line 11, 'and aligned' is unclear. What is 'aligned'? the carrier? Aligned with what? Is the 'work aligned' an actual step? This is not positively recited. What is 'another place'? what is worked 'aligned' with? The entire 'aligning step/steps' are unclear. What are these elements being aligned to/with? What is the purpose? Line 16, what is 'each operation'? indexing? Are there plural operations? This is not clear.

Claim 5 is unclear. The steps do not make sense. Are the works polished and then merged? Are the carriers housed after the merging step? Are the works placed back on lower plate after first polishing and merging? What is being aligned? What is it aligned with? The entire claim seems to be written in reversed steps and is totally unclear.

Claim 6, how can the work be ejected but 'remained merged with carrier'?

Claims 27,28, at what point in operation is the 'transferring and loading' step? What are wafers being transferred from and loaded to? What do 'wafers' refer to? The works?

This is unclear. Wafers are not mentioned previously. (claim 22 as well).

Allowable Subject Matter

Claims 1,2,5,6,15-17,20-23,27,28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
